- k. Description of the Application: After receiving Forest Service approval on July 18, 2012, PG&E filed a shoreline management plan (SMP) for Pinecrest Lake pursuant to a mandatory requirement of the Forest Service's section 4(e) condition No. 29, which was included as part of the license for the Spring Gap-Stanislaus Hydroelectric Project. The Forest Service, which owns and manages all of the shoreline lands at Pinecrest Lake

as part of the Stanislaus National Forest, required the SMP as a sub-plan under condition No. 29 (Recreation Facilities and Administration) to manage the reservoir shoreline at Pinecrest Lake and to address privately owned boat docks and mooring balls, and include zoning of certain sections of shoreline for swimming, fishing, and shoreline boat access.

Since all of the shoreline at Pinecrest Lake is owned and managed by the Forest Service, the Commission has no authority to dictate how the SMP is to be implemented. As such, the Commission views PG&E's filing as informational and will not take action on it. Any comments on the SMP should be directed to the Forest Service.
